NSW Builders Licence No: 171286C
ACT Builders Licence No: 20121378

Services across: Illawarra, Shoalhaven and South Coast NSW, Hunter, ACT and NSW Capital Country

Scope Home Access has been an approved provider to the National Disability Insurance Scheme (NDIS) since its inception in 2013; we have over 30 years' experience specialising in home modifications - assessing and completion of modifications for people with a wide range of disabilities. More recently in Illawarra and Shoalhaven area we have been able to offer Driving Assessments too.

Our Occupational Therapists and builders work closely with you from the initial Occupational Therapy Assessment through to completion of your modification(s) to achieve your goals, so you can feel confident in our advice and services.

Our staff and contractors are licenced, qualified, police checked and follow appropriate Work Health & Safety procedures and are committed to providing service in line with the National Disability Insurance Scheme Quality and Safeguards Commission.

How to access and what to expect from our service(s)

If you need home modifications this guide will help you understand what you need in your plan to progress home modifications, it will also outline how service is delivered.

It is important to have a good understanding of Reasonable and Necessary, what NDIS will and won't fund and how this will relate to your goals as set out in your NDIS plan. It is also important to have an understanding that whilst NDIS fund the modification along with fixtures and fitting these items are at a standard grade (anything over and above standard grade will need to be funded separately by you the participant, and an agreement in place with your service provider).

Make sure you have a good understanding of your plan is it managed, what support categories are included in your plan and how much funds are under each support category - **for home modifications you will need the following support categories:**

Occupational Therapy Assessment

Support Area:	Improved daily living
Budget:	\$
Details:	Funding for an allied health professional or therapist to assess and provide recommendations regarding home modifications that may assist you achieve your goals
How will the supports be paid:	NDIS will pay directly for these supports

If you required home modifications but only have the above Support Area 'Improved daily living' in your plan the OT will need to complete a needs assessment – the needs assessment indicates the need for home modification and other identified supports. The Needs Report is submitted to NDIS for review. Following review by NDIS the Support Area for Home modifications will be included in your plan.

Builder Consultation and Home Modifications

Support Area:	Home modifications
Budget:	Quote required
Details:	STATED SUPPORT: Funding for your home modification to be considered based on recommendations submitted from a relevant practitioner to NDIS (that is a completed assessment and relevant quote). This recommendation will be considered against the reasonable and necessary consideration (quote required)
How will the supports be paid:	NDIS will pay directly for these supports

OCCUPATIONAL THERAPY (OT) ASSESSMENT – Scope Home Access’ Occupational Therapists are qualified and experienced in home modification and equipment assessment and prescription.

Our Occupational Therapy assessments/reports are based on objective clinical assessment in relation to your disability and how it impacts your daily life, their role is to assess you in your home environment and prescribe and/or make recommendations to assist you achieve your goals in line with NDIS guidelines.

What to expect at the home assessment - It is vital the assessment is carried out within your own home, the assessment can take up to two hours and will involve a discussion about your needs (and goals), your day to day life, and how you are managing at home and where you are having difficulty – they will discuss additional equipment and/or changes to your home and/or routine and provide professional advice around achieving your goals and potential solutions to improve your independence and help you work towards your goals.

An assessment can take up to two hours depending on your needs; family member(s) or carers are both encouraged and welcome to be present at the visit.

They will also discuss with you what you can reasonably expect to have funded by NDIS. The OT will work with you to find solutions that best meet your needs and are likely to be funded by the NDIS - *It is important to note that the NDIS makes the final decision about what they will fund.*

Following a home assessment, the relevant documentation i.e. plans, OT report and quote(s) are submitted to the NDIS or relevant party on your behalf. You will be given a copy of the application for your records.

If your application is sent to the NDIS, it will be reviewed to determine if the recommendations are reasonable and necessary. When applications are approved for funding, we can work with you to notify equipment suppliers and/or commence the process of construction for any home modifications.

To access our Occupational Therapy service your plan will require the appropriate funds against the following NDIS Support Category – Improved daily living – see table page 2

Please note:

- *Required hours for service is calculated based on an individual’s requirements/need and is costed in increments of 15 minutes.*
- *Service cost is based upon an hourly rate in line with NDIS pricing guide at the time of service.*

Home Modifications – there are different types of modifications Minor modification and Complex structural modifications, both will require Occupational Therapist recommendations/prescription

Minor Home Modification – such as grabrails, handrails, hand-held showers, lever taps, ramps, access paths, widening doorways, wheelchair access etc.

The OT will forward their recommendations to Scope Home Access builder who will then quote based on OT’s recommendations. Scope Home Access will then submit on your behalf the OT’s recommendations (report if required) and quote to the NDIS or relevant parties on your behalf. We will provide you with a copy of the application.

Complex and Structural Home Modifications – such as major bathroom and kitchen modifications, require both an OT and Builder Consultation to progress an application for this level of work.

The OT will need to be accompanied by a builder (Builder Consultation) to ensure the OT's recommendations are structural viable within the home. If you have no funding in the Home Modification section of your NDIS plan, the OT will need to submit a report requesting support and funds are included to be able to progress the builder consultation.

If you have a small amount of funding in the Home Modifications section of your NDIS plan, the OT can easily arrange a Builder Consultation. The OT and builder will consult with you about what options that are structurally possible and what will help you meet your goals.

Following the home assessment with the builder the OT will draw up plans and complete the supporting report and specifications required by the NDIS and the Scope Home Access builder will then quote* the modification (modifications over \$10,000 NDIS required two quotes) The plans, OT report and quote is submitted to the NDIS for approval. We will provide you with a copy of the application.

**** additional items, features, upgrades or building work beyond what is reasonable and necessary, can also be explored, and you can consider using your own funds towards these.***

Simple equipment the OT will research suppliers and get quotes for products that will suit you and your needs. We will work with you and the supplier to determine if you have the funding available to arrange ordering and delivery of the items as soon as possible. If you do not have enough funding available in your plan, the OT will complete a report to support your need for the item(s). We can submit this to the NDIS or relevant party on your behalf. We will provide you with a copy of the application.

For complex equipment the OT may arrange trials with experienced and knowledgeable equipment suppliers. This will give you the chance to try different options and work with the OT to find the best solution to meet your needs. The OT will then source quotes for the equipment and complete a report to support your need for the item(s). We can submit this to the NDIS or relevant party on your behalf. We will provide you with a copy of the application.

DRIVING ASSESSMENTS – The purpose of the assessment is to determine if your medical condition impacts driving safety. We will focus on safety and the potential need for any vehicle modifications or specialist driving techniques.

An Occupational Therapy driving assessment is approximately a 2-3-hour assessment which consists of 2 components:

1. An off-road assessment usually conducted in your home
2. An on-road assessment conducted in a driving instructors' car that has been fitted with a dual brake system

Immediately following the assessment, the OT will provide feedback regarding the impact of your medical condition on your ability to drive safely and according to RMS legal requirements.

Cost will vary depending on the type of assessment and reporting/travel requirements. Any costs for the driving instructor and/or vehicle modifications are not included as part of the OT assessment costs.

BUILDERS CONSULTATION – are required for Complex modifications, our builder can carry out a Builder Consultation visit with your appointed Occupational Therapist; the builder will determine the viability of any modifications within the existing footprint of your home that the Occupational Therapist may propose.

Scope Home Access' Builder' will consider and assess the existing structure and services available and will make recommendations to the Occupational Therapist as to any possible structure changes (if required) to assist in the formulation of the Occupational Therapist's design plans and specifications.

The Builder Consultation fee is \$300 (excluding GST); this includes a total 1 hour of return travel i.e. to and from builder's base, any travel in excess of this time will be charged at \$75.00 per hour (excluding GST).

To access our Builder Consultation service your plan will require the appropriate funds against the following NDIS Support Area – Home modifications – see table (2) page 3

CONSTRUCTION – Once approval has been confirmed the construction stage can begin, this can involve builders, sub-contractors or both depending on the type of modification i.e. minor or complex.

Minor Home Modification – our builder will contact you to make a convenient time to schedule /complete works, you will be asked to sign a Service Agreement outlining terms of service and giving permission for work to proceed prior to any work commencing

Upon completion of works payment will be claim via portal or an invoice raised depending on how your plan is managed.

Complex and Structural Home Modifications – our builder will complete a building contract this contract is an agreement between us and the homeowner giving permission for work to proceed at the agreed amount and start/finish date - the contract will also outline special conditions (*if required*) and deposit/progress payments schedule. Our builder will explain the building contract to you to ensure you understand it and feel confident before signing. Once the contract has been signed work is scheduled and deposit requested. Prior to work commencing our builder will contact you to confirm start date and time.

Throughout construction progress payments are claimed in line with the contract. Upon completion the final payment is requested, and our builder will provide the homeowner with compliance certificates and any relevant warranties.

Once your application is with the NDIS, they will review it and determine if it the recommendations are reasonable and necessary. When applications are approved for funding, we can work with you to notify equipment suppliers or commence the process of construction for any home modifications.

WEBSITE / FACEBOOK – for more information on our services or to browse through our Gallery of home modification photos (including before and after examples), please visit our website at www.scopehomeaccess.com.au or to keep up with all the latest home modification news, 'Like' and 'Follow' us on Facebook

Frequently Asked Questions

How long will it take for an OT assessment? - This varies from depending on demand at the time, on average, 2-6 weeks

What does Reasonable and Necessary means? - Reasonable and necessary supports need to be related to a person disability – for further information see National Disability Insurance Scheme (Support for Participants) Rules 2013

Can I choose or upgrade my own fixture and fittings? - Yes, but this will need to be discussed with your OT to ensure suitability and will need to be funded over and above standard level

Can I change my mind about the design of the home modification? - Once NDIS have approved your modification it is generally fixed, any late variation will increase the cost and time taken to complete the modification, NDIS generally do not pay for these, and changes will need to be supported by the OT

How long will my home modification take? - This very much depends on the size of the project and what type of modification is required, on average 3-6 weeks

How much deposit is required? - A 10% deposit is required prior to work commencing - this is in line with Section 8, Home Building Act 1989.

Cooling-off Period - Contracts have a 5-day cooling-off, therefore if a homeowner wishes to withdraw within this period they are entitled to do so. It becomes more complicated after the cooling-off period if materials have been ordered – the homeowner would be expected to pay any cancellation fee and/or materials

How will I know if standards for quality and compliance are in place? - Scope Home Access is a registered provider for NDIS, all registered providers are required to comply with existing Commonwealth, State and Territory quality and safeguards standards and legislation.
